COLD WEATHER RULE

A municipal utility must not disconnect a residential customer during the period between October 15 and April 15 if the disconnection affects the *primary heat source* for the residential unit. To prevent disconnection, contact your provider for a Disconnect Protection Application, as you can be disconnected if you don't contact them. However, water disconnects will continue throughout the winter for non-payment of the utility bills if the water does not affect the primary heat source for the home.

.....

Hydrant Flushing - The DC Public Works Maintenance Dept. will be flushing fire hydrants in October. This may cause some water discoloration and low water pressure for a short period of time. If you have discolored water, run cold water for several minutes to allow clear water to work its way through pipes.
