If you are leaving your home for a warmer climate this winter, please contact City Hall regarding your water/sewer billing.

Cold Weather Rule

A municipal utility must not disconnect a residential customer during the period between October 15 and April 15 if the disconnection affects the *primary heat source* for the residential unit. To prevent disconnection, contact your provider for a Disconnect Protection Application, as you can be disconnected if you don't contact them. However, water disconnects will continue throughout the winter for non-payment of the utility bills if the water does not affect the primary heat source for the home.

Alcohol is a leading contributing factor in crashes on Minnesota roads. Nearly one out of every four deaths on Minnesota roads is drunk driving-related.

The bottom line is simple — if you plan on drinking, even one drink, plan ahead for a sober ride to get you home safely, and always buckle up... it's your first line of defense against drunk drivers or a motorist making a mistake on the road.
