

August 5, 2020

Resident of 2nd Street NE Project Area
Dodge Center, MN 55927

City of Dodge Center 2020 Street Reconstruction Project

Road Closure for the Installation of a New Box Culvert

Dear Resident,

This notice is to inform you that 2nd Street NE will be closed in the area of the existing box culvert, between 4th Avenue NE and 6 ½ Avenue NE while contractors install a new box culvert. The contractor will be removing the existing box culvert in the next couple weeks and work is expected to last approximately 4 weeks. Residents that live between 4th Avenue and the box culvert will be able to drive west on 2nd Street and residents that live between the box culvert and 6 ½ Avenue will be able to drive east on 2nd Street. The sketch below shows the approximate location of the road closure.

The contractor plans on removing the existing box culvert and will leave the trench open while the new box culvert is installed. There will be road closed signs up on both sides of the excavation while the trench is open and while contractors are installing the new culvert.

Please let me know if you have further questions or concerns.

Sincerely,

Daren Meier, P.E.
